SUICIDE RISK SCREENING IN SCHOOLS

To register, click or copy/paste link below date

About the Training:

Training on suicide risk screening for students in the school setting is vital to comprehensive suicide prevention. California Education Code 215 mandates that all Local Education Agencies have protocols in place to intervene with youth at risk. This training provides a FREE opportunity for school staff to learn about best practices in school-based screening for suicide risk and how to respond effectively to keep youth and students safe.

The training also incorporates content on Suicide Safety Planning Intervention (SPI), data and tracking related to suicide risk screening, and cultural considerations. Attendees will receive materials necessary for implementation.

Learning Objectives

- Learn best practices for screening youth for suicide risk
- Explore key components of suicide risk screening in school setting, including evidence-based tools
- Examine crisis response protocols and how to incorporate steps to keep youth safe

About the Speaker:
Stan Collins
Suicide Prevention Specialist
